

## Dear Runners,

We are living in unprecedented, extraordinary times.

The Royal City Half Marathon Committee, along with the entire global running community, is currently being faced with unprecedented challenges due to Covid-19. We are all in uncharted territory and unsure of what the future holds with regard to regulations and the “new normal”. Keeping that in mind, the health and safety of our runners, volunteers and community is our foremost concern and priority.

**In accordance with government guidelines - both local and provincial, along with guidance received from public health, we have made the difficult decision to postpone the Royal City Half Marathon (currently scheduled for September 13, 2020) to April 11, 2021, in Guelph, Ontario.**

Currently registered participants will have the option of either deferring their entry to the new race date of April 11, 2021, or receiving a full refund of their registration fee.

We appreciate and understand your disappointment. These are challenging times for all of us but with the support of our participants, volunteers, sponsors and organizers, we are confident that we will return to the road stronger than ever, when it is safe to do so.

Thank you for your continued support and understanding. We appreciate each and every one of our valued partners, sponsors and participants as we navigate through this together.

Stay safe.

Steve, Shannon, Natalie, Angela, Mike and Robb  
**The Royal City Half Marathon Committee**
